Subject: Site Maintenance, Annual Reports, and Amendment; Amnor Energy; Coyote Knoll Mine; S/023/0086; Juab County, Utah

Dear Mr. Kofford:

Wayne Western inspected the Coyote Knoll mine on March 11, 2014, and noted trash and scrap that needs to be cleaned up. See the attached inspection report. Please make arrangements to have this removed no later than May 1, 2014.

The Division has not received annual reports for the Coyote Knoll mine for 2009, 2011, or 2012. Please submit these reports by May 1, 2014. The report forms are on the Division's web site at [https://fs.ogm.utah.gov/PUB/MINES/Minerals\\_Related/FORMS/MR-AR-SMO.pdf](https://fs.ogm.utah.gov/PUB/MINES/Minerals_Related/FORMS/MR-AR-SMO.pdf).

The current Notice of Intention to Commence Small Mining Operations (Notice) only shows five acres of disturbance, but based on the surety being submitted and also on conversations with you, it is understood that you intend the disturbed area to be ten acres. Please submit an amendment to the Notice showing the correct disturbance acreage. Please also include maps showing this area. All mining related activities (with the exception of reclamation) must be confined to the designated disturbed area.

Please contact Wayne Western at 801 538-5263 or me at if you have questions or concerns regarding this letter. Thank you for your cooperation.

Sincerely,

Paul B. Baker  
Minerals Program Manager
